

BRIDGING AND INCREASING REACH OF INFO-PLATFORMS FOR UKRAINIAN REFUGEES

Easily reachable and updated info-platform for Ukrainian refugees as a source of information on vital needs.

FUTURE RECOMMENDATIONS

The project goal was to increase the reach of existing information resources for Ukrainian refugees, providing recommendations and support on constant update of their content.

Ensuring the continuation of the project is essential to provide easy access to information for Ukrainian war refugees, who already stay in Lithuania or will arrive in case of escalation of the war.

- The main recommendation to keep the project's activity is to employ an editor (ideally in the Ministry of Social Security and Labor). It is important to continue updating information on the important legislation changes, procedures connected with the continuation of residence permits, etc. Adding events, services, and other useful information to one source such as Ltua.lt and SuUkraina.lt shall be the editor's task.
- To maintain further communication in Social networks. We recommend that an editor proceeds with spreading information about the web page on social media, widely used by Ukrainians as a source of information. Would be beneficial to build connections with Ukrainian groups in social media and to have fixed information about Ltua.lt and SuUkraina.lt in their feed.
- It is important to have steady connections with the ministries and agencies that provide the main information important for people's daily life, decision-making, etc.

Project owner: Laura Perevičiūtė

Project managers: Polina Soroka, Milda Ulozaitė, Kseniia Yerofeieva

Timeline: 19/09/2022-03/03/2023

BRIDGING AND INCREASING REACH OF INFO-PLATFORMS FOR UKRAINIAN REFUGEES

Easily reachable and updated info-platform for Ukrainian refugees as a source of information on vital needs.

FUTURE RECOMMENDATIONS

- Ties with municipalities and regular reminders about the Ltua.lt and SuUkraina.lt are essential. This way refugees and public workers all over Lithuania will have access to the same information source and will share and spread reliable information.
- To ensure connections with humanitarian aid organizations and NGOs that provide help and therefore are often visited by war refugees, and on the other hand are the source of information themselves.
- To provide SuUkraina.lt with recommendations on possible programs for funding. That will help to improve the page's functionality, and possibly to create a convenient app.
