*If I have seen further it is by standing on the shoulders of Giants.
Isaac Newton, 1675*

Strategic plans for AI have to be renewed, confirmed, and practically implemented

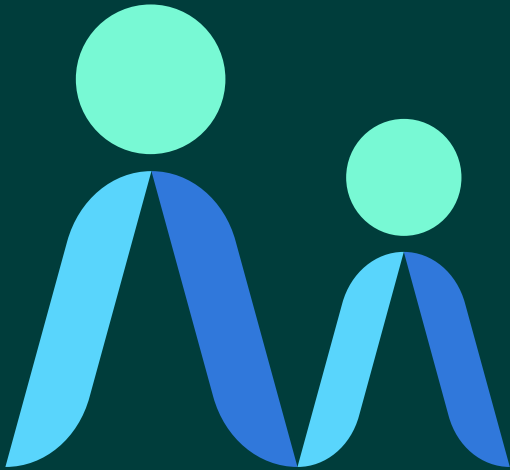

- AI Strategy (2019)
- AI Action plan (2022)
- ICT Roadmap (2023)
- EU AI Act (2024)

Expectations

Inclusive and collaborative result:

Working together to make the National AI Governance model representative of the Lithuanian AI ecosystem, its capabilities, gaps, and needs.

Goal

Inclusive strategic dialogue to achieve the expected result

Stakeholder unity, partnerships, and collaboration

Clarity about the local AI ecosystem

Collaborators

Members of the Lithuanian AI ecosystem:

- Academia
- Private sector
- Public sector
- NGOs

Topics of discussion

Breakthrough sectors,

Feasible aims,

Ensuring effective intersectoral communication,

Legal and institutional frameworks,

Innovation support,

International collaboration,

Data and Ethics,

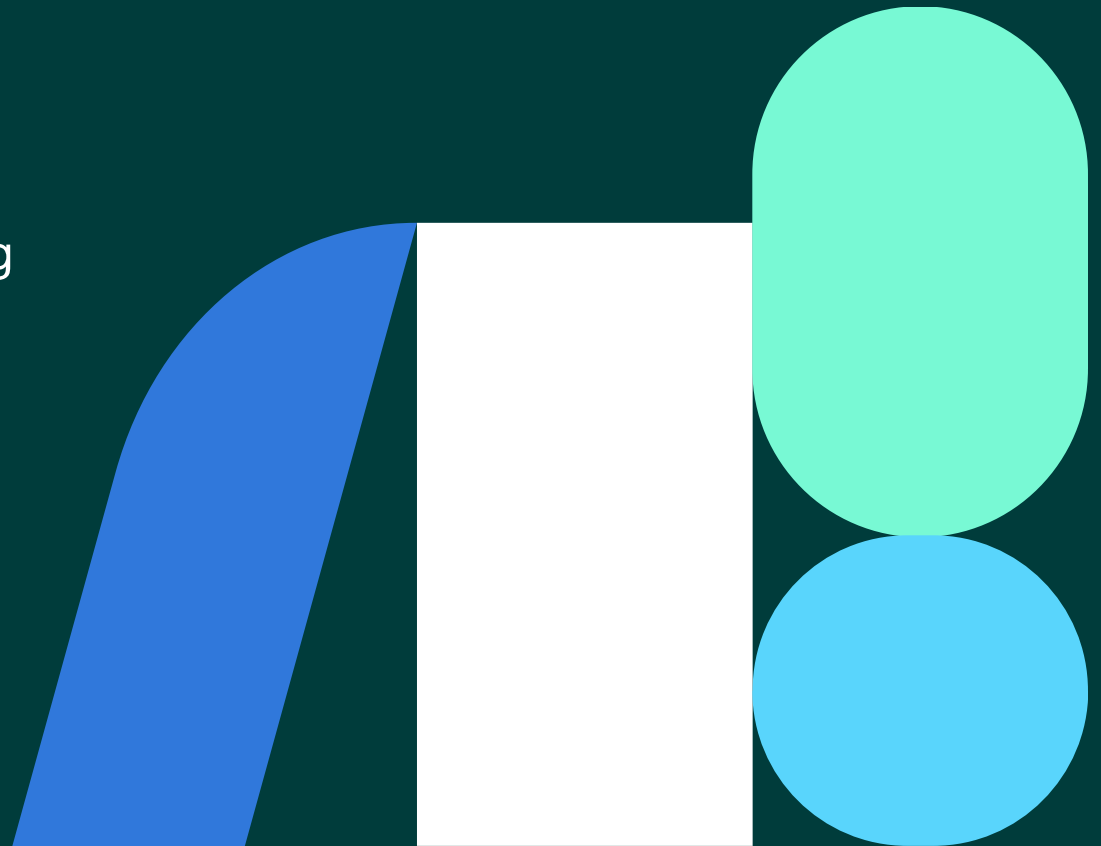

Education,

...

Format of the forum

6 expert groups with leaders:

1. Pre-forum communication (incl. topic questions and material);
2. Short presentation at the beginning of meeting on the topic;
3. Discussions among experts in groups;
4. Panel discussion between group leaders and questions from the audience;
5. Post-forum feedback, questions and communication between group and forum members.

Communication beyond the physical forum:

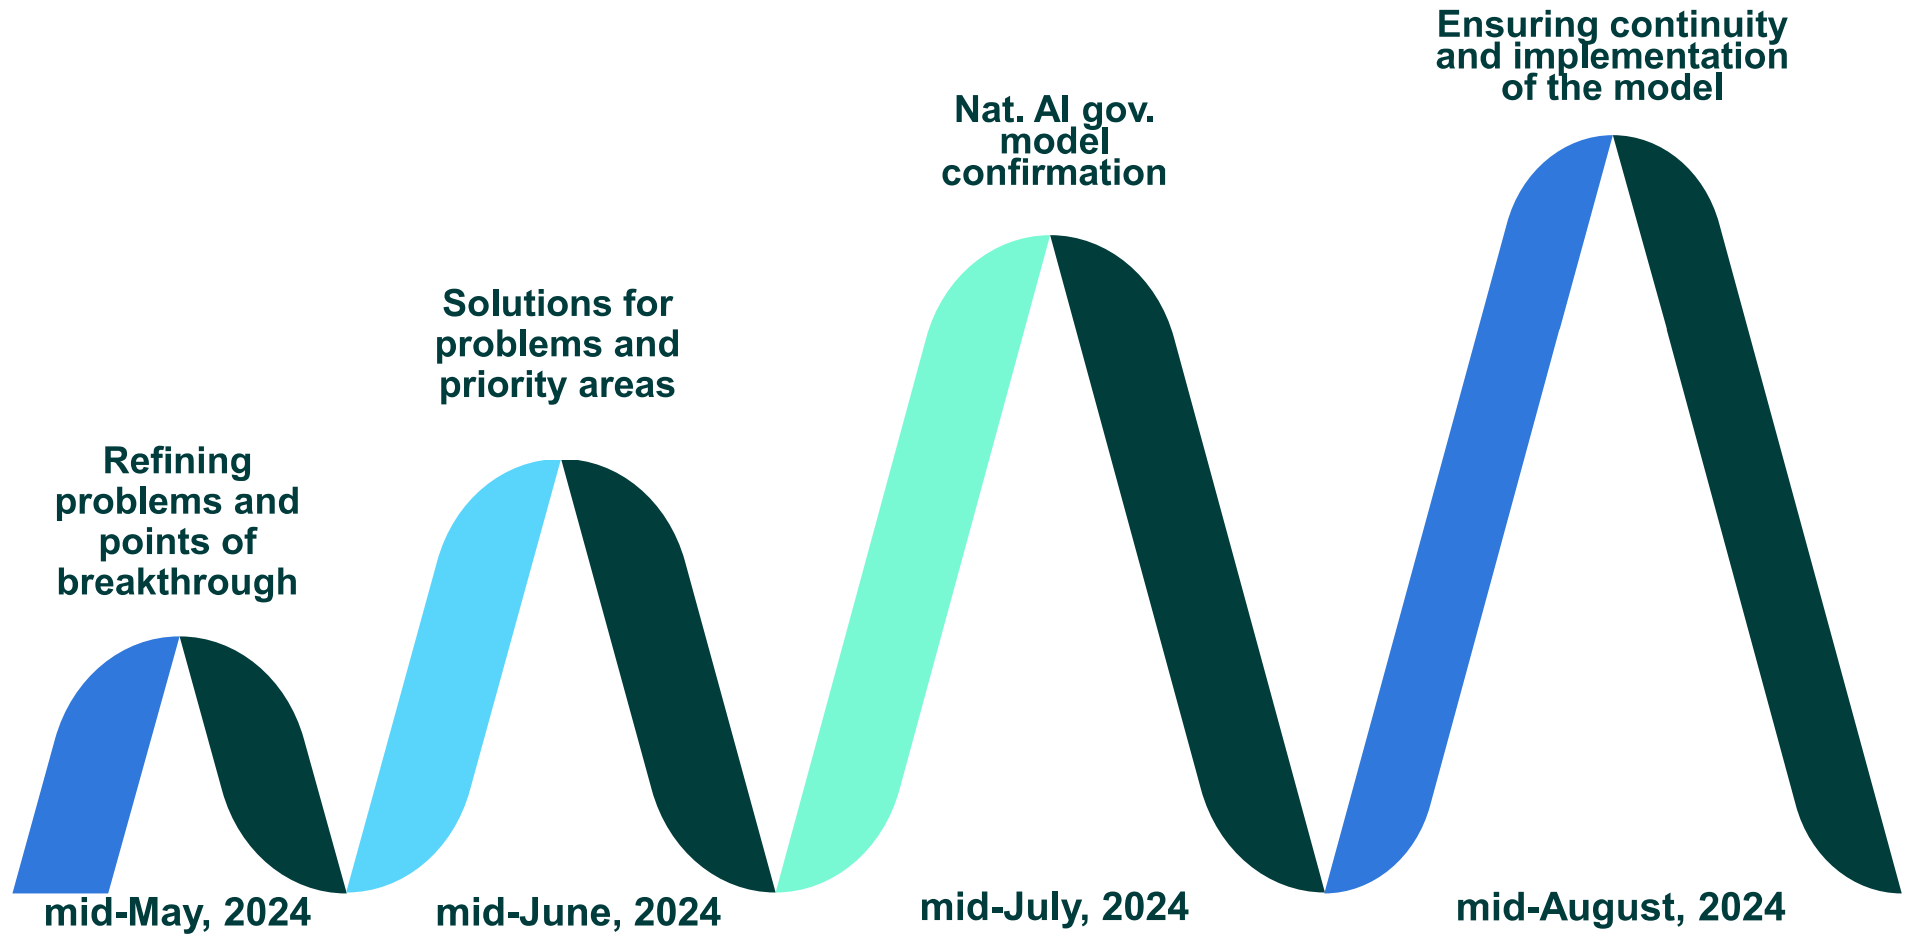

**Not necessary
but very
commendable*

- AG AI Governance Lithuania
- General
- Conformity Assessment
- Deployers
- Developers
- Digital Law
- Policy
