

# Lithuania: Solutions for Greener Future

## LITHUANIAN DEVELOPMENT COOPERATION

In over 20 years as a donor country, Lithuania's development cooperation strength is based on **transformation experience and commitment to democratic principles.**

Our main focus is consistent support to **Ukraine and its reconstruction.**

Lithuania contributes to **addressing the most pressing global challenges** mostly by building resilience to hybrid threats for democracy.

Yet, as the world grapples with **environmental issues**, Lithuania emerges as a **beacon of sustainable solutions.**

## WAYS TO COOPERATE

### PUBLIC PROCUREMENT

Partner in tenders for innovative climate related solutions

### EXISTING INSTITUTION BUILDING TOOLS

Get involved in Twinning projects and TAEX programme in partnership with Lithuania

### EUROPEAN CHANNELS

Discover possible cooperation through EU initiatives and programmes

### BUSINESS AS USUAL

Contact Lithuanian businesses for cooperation and trade

### ECONOMIC DIPLOMACY

Facilitate business-to-business cooperation through diplomatic network

### INTERNATIONAL INITIATIVES

Uncover possibilities to partner in international programmes

## WHAT SOLUTIONS CAN LITHUANIA OFFER?

### Lithuanian Green Solutions Catalogue aims to support international cooperation for sustainable development.

The Green Solutions Catalogue, first published in September 2024 is **constantly updated** and aims to **showcase Lithuania's green solutions and eco-friendly practices** to international partners, in support of collective efforts towards a greener, healthier, and more sustainable world.
